## **TRAVEL & EXPENSE POLICY**

Document ID: BO-TRV-001 | Version: 2.0 | Effective Date: 01-Apr-2026

Document Status: Approved   Owner: Human Resources / Corporate Operations

## **1. Purpose and Scope**

This policy governs business travel undertaken on behalf of BlueOrbit and defines approval, booking, accommodation, meals, local transportation, and expense-claim requirements.

Personal travel costs are not reimbursable unless specifically approved as a business exception.

## **2. Business Travel Eligibility**

Business travel must have a legitimate business purpose such as client meetings, project work, conferences, training, or approved company events.

Employees should use cost-effective options while considering safety, business requirements, and reasonable travel time.

## **3. Travel Approval**

Travel should be approved by the employee's manager before booking.

International travel additionally requires the relevant business and HR/security approvals where applicable.

Unapproved travel may not be reimbursed.

## **4. Air and Train Travel**

Domestic air travel: Economy class is the standard entitlement.

International air travel: Economy class is standard unless an executive-level exception is approved.

Train travel: AC Chair Car or AC 2-Tier is reimbursable for eligible business travel, depending on journey duration and availability.

Employees should use approved corporate booking channels when available.

## **5. Accommodation**

Domestic hotel allowance: up to ₹5,000 per night, excluding taxes.

International hotel allowance: up to ₹12,000 per night equivalent, excluding taxes, unless a location-specific limit is approved.

Hotel claims should include an itemized invoice or receipt.

Accommodation above the standard limit requires prior approval; an exception is not guaranteed simply because the employee incurred the cost.

## **6. Meals**

Domestic meal allowance: up to ₹1,200 per day for breakfast, lunch, and dinner combined when meals are not provided by the company or host.

International meal allowance: up to ₹3,500 per day equivalent.

Alcoholic beverages are not reimbursable.

Meal receipts should be retained when required by the expense system.

## **7. Local Transportation and Mileage**

Local transport: reasonable taxi, ride-hailing, public transport, or approved rental costs are reimbursable for business purposes.

Personal vehicle mileage: ₹12 per kilometer for approved business travel using a personal car.

Parking and tolls may be reimbursed when directly related to approved business travel and supported by receipts.

## **8. Expense Claims and Receipts**

Employees must submit travel expenses within 15 calendar days after returning from the trip.

Receipts are required for hotel, air/train tickets, local transportation, and other claim categories where the expense system requests supporting evidence.

Missing documentation may delay reimbursement or result in rejection.

## **9. Travel Advance**

Employees may request a travel advance for approved trips when permitted by the finance process.

Unused advance amounts must be settled through the expense claim process within 15 calendar days after travel.

## **10. International Travel and Security**

Employees traveling internationally must comply with visa, insurance, security, and destination-specific requirements.

Sensitive company information must be protected during travel. Public Wi-Fi should be used only with approved security controls and VPN where required.

## **11. Exceptions and Contacts**

Exceptions to monetary limits require documented approval from the appropriate business or finance authority before the expense is incurred whenever practical.
