

BlueOrbit Solutions Pvt. Ltd.

WORK FROM HOME POLICY

Document ID: BO-WFH-001 | Version: 2.0 | Effective Date: 01-Apr-2026

Document Status: Approved | Owner: Human Resources / Corporate Operations

1. Purpose and Scope

This policy defines the conditions under which eligible BlueOrbit employees may work remotely.

WFH availability is subject to role suitability, team requirements, performance, security controls, and manager approval.

2. WFH Eligibility

Employees in roles suitable for remote work may request WFH.

Roles requiring physical presence, specialized equipment, customer-site work, or other operational coverage may have different arrangements.

Eligibility does not create an automatic right to work remotely on any specific day.

3. Monthly WFH Allowance

Standard allowance: up to 8 WFH days per calendar month for eligible employees.

Unused WFH days do not carry forward to the next month.

Managers may approve fewer WFH days when business or team requirements require regular office presence.

4. Approval Requirements

Planned WFH should be requested through the designated attendance/HR system before the workday begins.

Manager approval is required unless the request qualifies as emergency WFH.

Employees should ensure their calendar and team availability status accurately reflect their working location.

5. Consecutive WFH Limit

Standard limit: a maximum of 3 consecutive WFH working days may be taken under a normal request.

Requests exceeding 3 consecutive working days require manager and HR approval and may be treated as an exception.

6. Core Working Hours

Core hours: 10:00 AM to 4:00 PM local time.

Employees working remotely must remain reachable during core hours unless they are on an approved break, leave, or exception.

Team-specific schedules may require additional availability.

7. Availability and Performance

Employees must attend required meetings, respond through approved communication channels, and maintain expected productivity.

WFH should not be used to avoid required office attendance, client meetings, training, or team events.

8. Emergency WFH

Emergency WFH may be requested for unexpected situations that make office attendance impractical.

Employees should notify their manager as soon as possible and regularize the attendance record afterward.

9. Equipment Requirements

Employees should use company-approved devices and accessories where provided.

Home internet should be sufficiently reliable for normal work requirements.

Company equipment must not be shared with unauthorized persons.

10. Security Requirements

Employees must follow the Security Policy while working remotely.

- Use MFA and approved authentication methods.
- Do not store confidential company data on personal devices or unapproved cloud storage.
- Use the company VPN when required for sensitive systems.
- Position screens to prevent unauthorized viewing in public or shared spaces.
- Report lost devices or suspected security incidents immediately.

11. Exceptions and Contact

Exceptions may be approved based on business need, health/safety considerations, or other documented circumstances.
